Software Engineering student (8th semester) at Escuela Politécnica Nacional (EPN) with hands-on experience in Full Stack development, REST API integrations, payment gateways, and agile environments. International competition and hackathon participant with strong interest in backend development, software architecture, project management, and scalable solutions.

EDUCATION

Escuela Politécnica Nacional (EPN)

B.Sc. in Software Engineering

Quito, Ecuador

2022 – Present

Current 8th semester. Focused on software development, algorithms, and software architecture.

PROFESSIONAL EXPERIENCE

Banco de Alimentos Quito

Full Stack Developer

Quito, Ecuador

May 2025 – Dec 2025

- Integrated REST APIs and webhooks from national and international payment gateways, ensuring secure data transmission and reliable information flow.
- Managed synchronization between payment gateways and CRM systems, improving operational efficiency and supporting data-driven decision making.
- Developed and maintained Full Stack web applications, ensuring seamless integration between frontend, backend, REST APIs, and third-party services.

PROJECTS

Te Quiero Verde

Product Recommendation System

Business Intelligence Project

Intelligent shopping cart recommendation system. Analyzes real-time selections and suggests products using Apriori algorithm association rules generated from historical transactions. **Technologies:** ETL, Power BI, Python, WordPress.

The Reel Cafe

Backend Development & RESTful Architecture

Movie Review Web Application

Web application structured under OOP principles and Factory pattern. Implemented a RESTful API using JAX-RS (Jersey) and Object-Relational Mapping (ORM) with JPA alongside MySQL. **Technologies:** Java 17, JPA, Jersey, MySQL, HTML, CSS.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, TypeScript, Java, C#, HTML, CSS

Frameworks & Libraries: React, Next.js, Angular, NestJS, Express.js, .NET

Databases & ORM: PostgreSQL, Supabase, Neon, Prisma

Tools & Deployment: Git, Docker, Postman, Swagger, Vercel, Heroku

Project Management & Methodologies: Scrum, Agile Methodologies, Monday CRM, Didit, Power BI

Languages: Spanish (Native), English (B2 Professional Working Proficiency – Certificate)

ACHIEVEMENTS

3rd Place – LigaGP+ (PMI Regional Competition)

Awarded Third Place in LigaGP+, a regional international competition organized by the Project Management Institute (PMI), focused on project management, strategic decision-making, and team collaboration.

1st Place – Banco de Alimentos Quito Hackathon

Developed a technological solution focused on donation optimization.

3rd Place – Conecta Impacto Hackathon

Designed a project aimed at centralizing reports, validating indicators, and managing donations from partner NGOs.

SOFT SKILLS

- Analytical thinking and complex problem solving.
- Effective communication in multidisciplinary teams.
- Adaptability and time management in fast-paced environments.
